Learning Science  
& Analytics  
Specialist

- Mentoring Project Background: (Martina)
  - Lit Review
  - Mentoring Project Approach
- Data Collection and Analysis: (Minh)
- CHM Next Steps (Martina)
- Analytics with UDP Data: (Heather)
- Q & A (10 min)

- Mentoring enhances positive student learning outcomes
  - student behaviors<sup>1</sup>,
  - attitudes<sup>1</sup>,
  - retention rates<sup>1</sup>,
  - metacognitive awareness<sup>2</sup>,
  - and technical performance<sup>3</sup>
- Mentoring decreases negative factors impacting student learning outcomes
  - Stress and anxiety levels<sup>4</sup>
- Gap
  - Post-intervention student retention in academic programs

<sup>4</sup> Kachaturoff, M., Caboral-Stevens, M., Gee, M., & Lan, V. M. (2020). Effects of peer-mentoring on stress and anxiety levels of undergraduate nursing students: An integrative review. *Journal of Professional Nursing*, 36(4), 223-228.

# Background - Timeline

- Mentoring at-risk students in large enrollment General Chemistry 1
- Spanning four semesters
  - Fall 2020 (online only)
  - Spring 2021 (hyflex)
  - Fall 2021 (in-person)
  - Spring 2022 (in-person)

# Selection Criteria

1. <70% on first exam
2. did not drop back to intro to chem
3. completed all assignments including ALEKS prep
  - Students self-enrolled after being contacted by email.
  - The students who didn't are the comparison group.

# Mentoring Approaches

Semester	Mentoring Approaches	
	Mentor Mentee Ratio	Student Hour Check-Ins (Instructor & Mentor)
Fall 2020	1:1	No
Spring 2021	3:5	Yes
Fall 2021	2:11	Yes
Spring 2022	1:2	Yes

## Data Collection

Data sources	Data
Faculty	<ul style="list-style-type: none"><li>• Student names (mentored &amp; criteria-eligible but not mentored)</li><li>• UFID</li><li>• Section</li></ul>
Unizin	<ul style="list-style-type: none"><li>• Above variables</li><li>• Enrollment status</li><li>• Learning final scores</li><li>• Grade on official transcript</li></ul>

*Faculty provided permission for their course data to be included.*

## Variable selection

Variables	Details
Group	<ul style="list-style-type: none"> <li>• Treatment group (mentored)</li> <li>• Comparison group (criteria-eligible but not mentored)</li> <li>• Control group (ineligible)</li> </ul>
Enrollment status (genchem 2 – chm2046)	<ul style="list-style-type: none"> <li>• Yes</li> <li>• No</li> </ul>
Performance status (chm2045 and chm2046)	<ul style="list-style-type: none"> <li>• Pass</li> <li>• Fail</li> <li>• Withdraw</li> </ul>
Repetition status (chm2045 and chm2046)	<ul style="list-style-type: none"> <li>• Yes</li> <li>• No</li> </ul>

- Finding UFIDs for students whose UFIDs are either missing or incorrect
  - Combing different naming versions of the same students
- Identifying repetition status
- Assigning group status
- Assigning performance status based on grades

# Sample sizes

Group	CHM 2045	CHM 2046
Treatment	103 (6%)	41 (6%)
Comparison	184 (11%)	70 (8%)
Control	1,350 (83%)	720 (86%)
Total	1,637 (100%)	831 (100%)

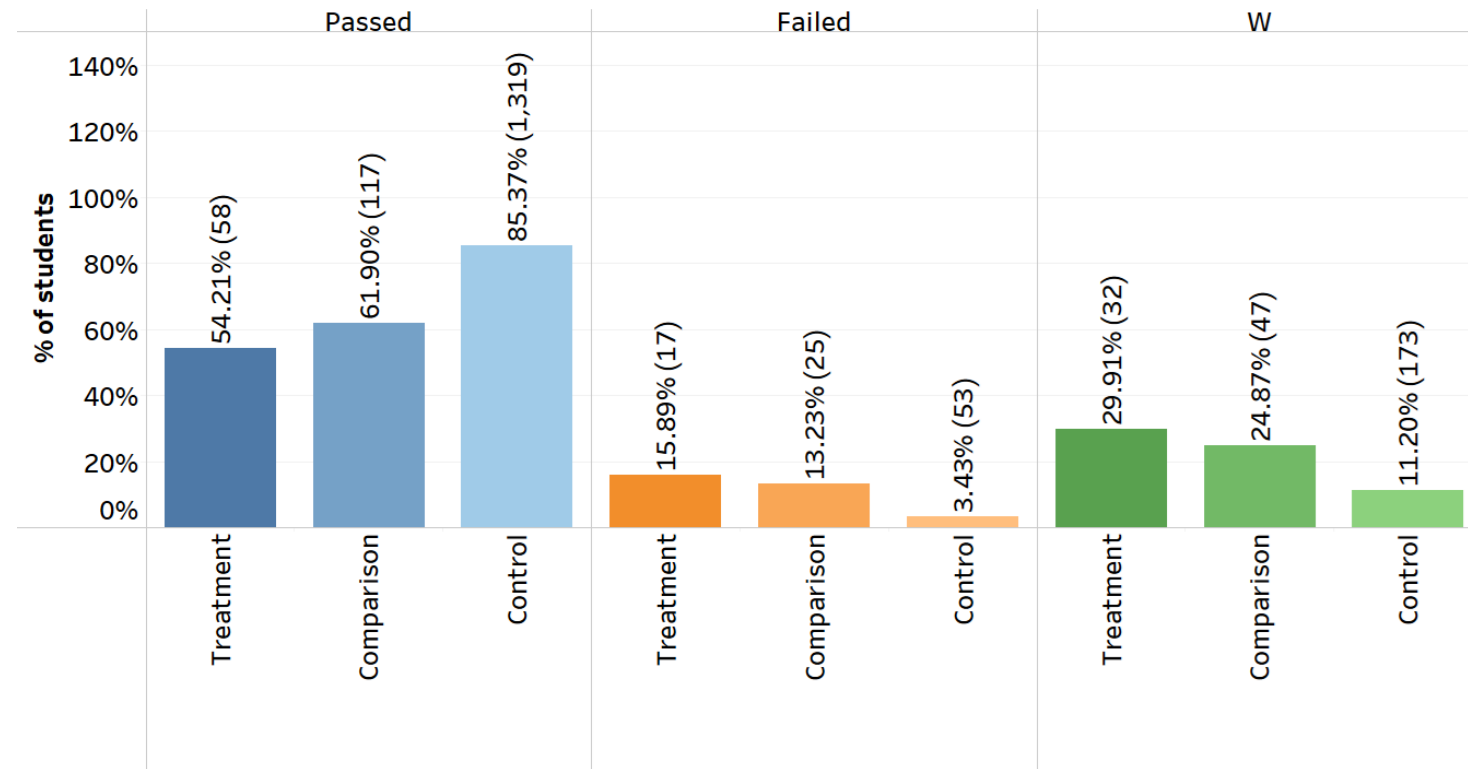

# Results: CHM 2045 performance

- Significant differences in Pass/Fail/W rates between the control and the other groups.
- No significant difference between the treatment and the comparison group.
- Treatment group are more likely to fail or withdraw.

Pass = A-C

Fail = D-E

Pass, fail, withdraw rates in CHM 2045 across groups

# Results: CHM 2046 Enrollments

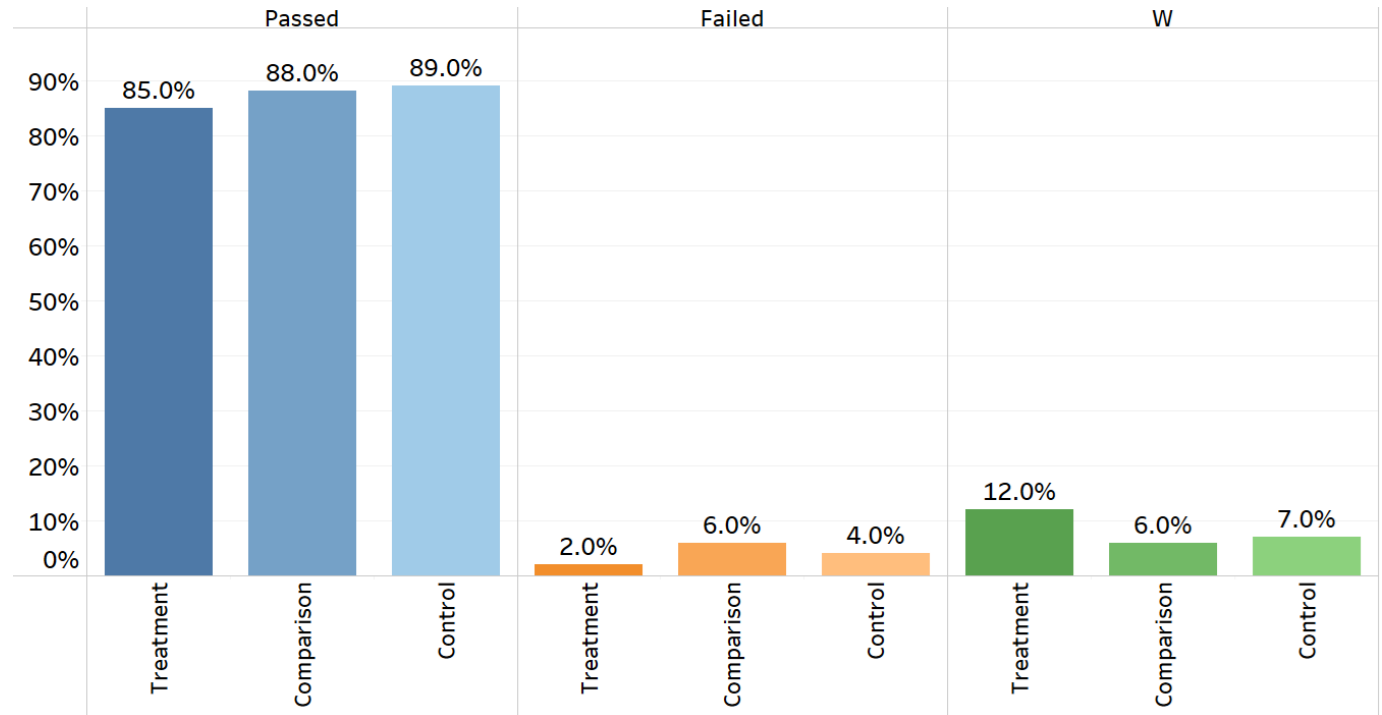

- No significant difference.
- Mentored students who passed (grade A-C) CHM 2045 were more likely to enroll in CHM 2046.

Group	Chm2045 enrolled	Chm2045 passed	Chm2046 enrolled
Mentees	103	57 (55%)	41 (72%)
Comparison	184	116 (63%)	70 (60%)
Control	1,350	1,146 (85%)	720 (63%)
Total	1,637	1,319 (81%)	831 (63%)

# Results: CHM 2046 performance

- No significant differences in pass/fail/withdraw rates across groups.
- The gap in passing rates between the treatment (55% -> 85%) and the other two groups are significantly reduced.
- Treatment group are more likely to withdraw.

Probability of passing, failing, and withdrawing from CHM 2046 across groups

# Results: Repeating CHM 2045

- No significant difference across groups.
- Mentored students who failed/withdrew at first attempt are more likely to repeat the class.

Group	CHM 2045 enrolled	Fail/withdraw	Repeaters
Treatment	103	49 (47.57%)	6 (12.24%)
Comparison	184	72 (39.13%)	3 (4.17%)
Control	1,350	226 (16.74%)	18 (7.96%)
Total	1,637	347 (21.19%)	27 (7.78%)

# Results: Repeating CHM 2046

- No significant difference across groups.
- Mentored students who failed/withdrew at first attempt are more likely to repeat the class

Group	CHM 2046 enrolled	Fail/withdraw	Repeaters
Treatment	41	6 (14.63%)	6 (100.00%)
Comparison	70	8 (11.43%)	5 (62.5%)
Control	720	79 (19.97%)	37 (46.83%)
Total	831	347 (18.85%)	27 (7.78%)

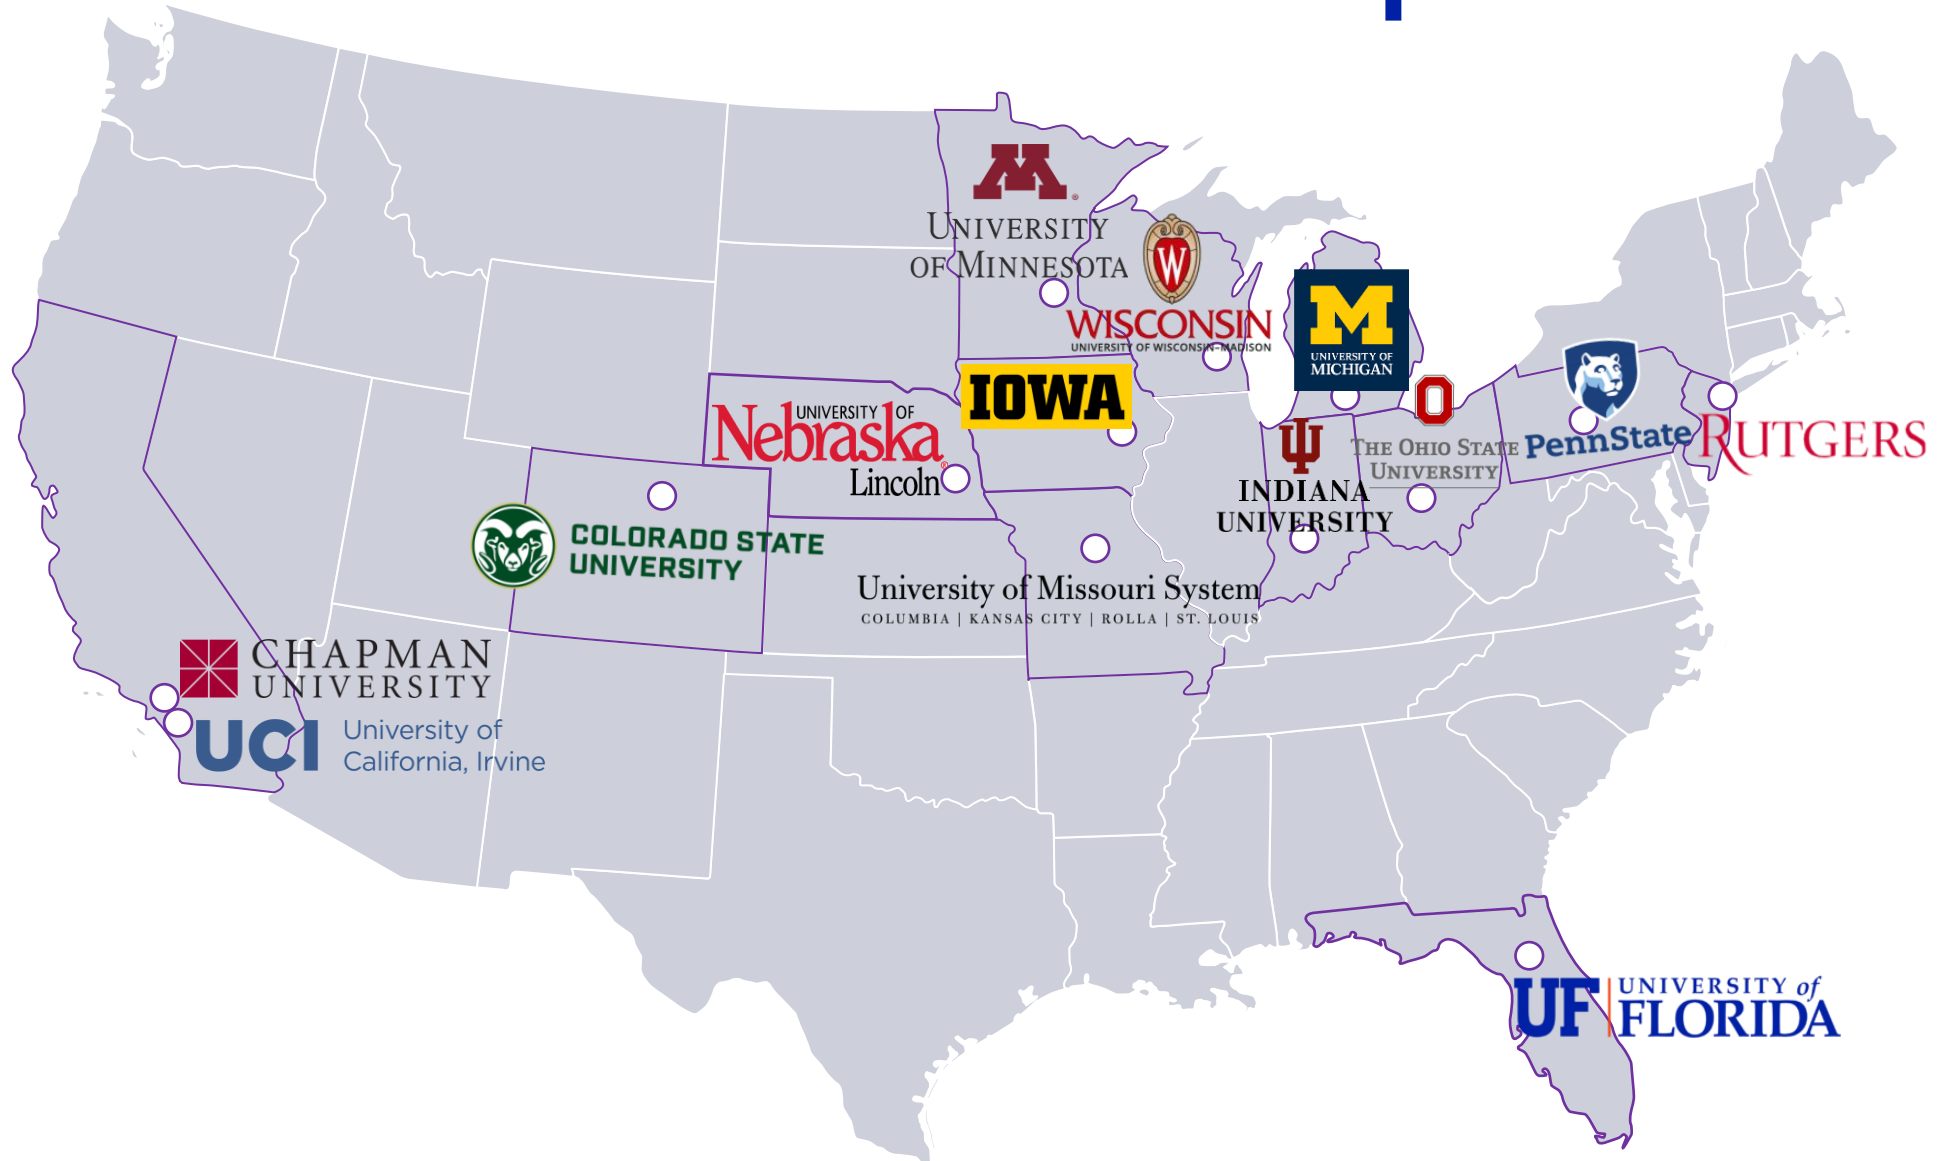

# CHM: What's next?

- Academic Resources at UF
- Weekly study group (10-20 students/ TA)
- Run by volunteer undergraduate TAs
- Weekly study problems provided by instructors
- Students self-enrolled
- None of the at-risk students (after exam 1) self enrolled in this program.
- The students that need the most support do not participate.

Conclusion: no matter what we do there will always be students that will fail this class (not mature enough? Incorrect major?)
