Art History (MA)

Art History (MA) Mission

Mission:

The M.A. Program in Art History is committed to advancing students' education through critical methods of interpretation and in-depth study of the world's art traditions. The curriculum provides the intellectual foundation necessary for developing thorough knowledge of the field and its critical methods, and offers the specialized training needed to conduct advanced scholarly research. This training is intended to culminate in the master's thesis, a work that demonstrates independent thinking, art historical knowledge, and correct scholarly practices. The MA in Art History program supports the college's primary mission to "to produce artists, performers, scholars, teachers, and practitioners who combine the qualities of academic and professional excellence" (College of Fine Arts Mission Statement). The program supports the University of Florida mission to "to lead and serve the state of Florida, the nation and the world by pursuing and disseminating new knowledge while building upon the experiences of the past...to advance by strengthening the human condition and improving the quality of life." (University of Florida Mission Statement).
